(CSCAP Indonesia and USCSCAP)

9:05 **Session 1: The Regional Cyber Security Environment**

This session examines the state of the cyber security environment. What are the chief threats and dangers? What role does cyber play in terrorism or transnational crime? How has the regional environment changed since the 2012 CSCAP Report, “Ensuring a Safer Cyber Security Environment”? What new risks have emerged? Are there new opportunities as well? What are the major obstacles to countering these threats?

Speakers:

10:30 **Coffee Break**

10:45 **Session 2: Progress in ASEAN in light of the ASEAN Cybersecurity Ministerial and ASEAN Cyber Strategy**

This session will hone in on ARF efforts and their impact on regional cyber security. What progress has been made since the ASEAN Cybersecurity Ministerial and the articulation of the ASEAN Cyber Strategy? What has impeded ASEAN and ARF progress? What is the best role for the ARF in this effort? Are there other forums or venues that should be considered to tackle this challenge?

Speakers:

12:15 **Lunch**

13:30 **Session 3: CBMs that can help the ARF achieve a safer cybersecurity environment**

This session will focus on the recommendations for cooperative measures within the 2015 ARF Cyber Work Plan, and provide updates. What are the most urgent and necessary cyber CBMs that have the potential to help the ARF achieve regional cyber stability? How can the ARF best implement cyber CBMs and continue to make progress in this area? It will also examine other reports, recommendations, and CBMs, such as the 2015 UN GGE report's recommendations on CBMs and progress on cyber CBMs within the OSCE.

Speakers:
